

OUR VISION

A society in which pharmacists lead activities to protect public health and the environment, and citizens responsibly manage pharmaceutical waste.

PharmWaste Project Objectives

- Encouraging the return of pharmaceutical waste to pharmacies
- Strengthening the role of pharmacists in the management of pharmaceutical waste
- Citizenship education

Your choice makes a difference - today, tomorrow and for generations to come. Medicines help when used correctly - but become a risk when disposed of properly.

Erasmus + project 2025-1-RS01-KA210-ADU-000363956 in the field of adult education within the program of small partnerships.

What is pharmaceutical waste?

Pharmaceutical waste includes medicines that are no longer needed or suitable for use:

unused and improperly stored medicines

expired medicines.

WHY IS IT IMPORTANT TO DISPOSE OF PHARMACEUTICAL WASTE PROPERLY?

Improper disposal of pharmaceutical waste has numerous and far-reaching consequences for the environment, human health and the economy.

Step-by-step: handing unused medicines

01

Browse your medicine cabinet once or twice a year.

02

Separate unnecessary medicines and pack them in a clean bag.

03

Take it to the nearest pharmacy that receives pharmaceutical waste.

04

Done! You have contributed to protect the environment and public health!

PharmWaste Project

PharmWaste is an international project financed by the European Union through the Erasmus+ KA210 program, which is implemented in the period from November 1, 2025 to April 30, 2027.

The project is implemented in partnership between the Association of Pharmacists of the Nišava-Pirot Region (Serbia) and the Association for the Advancement and Development of Pharmacists and a Healthy Life Progressus (Croatia). The project gathers a team of recognized experts in the fields of pharmacotherapy, pharmacology, toxicology, social pharmacy and pharmaceutical practice, with significant experience in education. The project is managed by Prof. Dr. Aleksandra Catić Đorđević, a full professor at the Faculty of Medicine, University of Niš.
